Introduction

Welcome to the General Surgery Education and Training (GSET) Program in the New South Wales- ACT (NSW-ACT) Region.

There are various requirements to training that Trainees need to be aware of. Please use this regional guide along with the Training Regulations to familiarise yourself with these requirements to ensure a smooth journey during your time on the training program.

This guide is to assist you to understand how the NSW-ACT region works, with important dates and information.

The Royal Australasian College of Surgeons (RACS) is the principal body for the training and education of surgeons in Australia and New Zealand. General Surgeons Australia (GSA) collaborates with the RACS as an agent of the College, to administer the training program in Australia and manage the Australian Board in General Surgery (ABiGS). ABiGS is the overseer of the GSET Program and reports directly to the Board of Surgical Education and Training (BSET) and the RACS Council.

The General Surgery SET/GSET Program is designed to ensure that the graduating General Surgery Trainee has the competencies and skills required to undertake core General Surgery procedures, is able to participate independently in an acute on call general surgical roster and is competent across the RACS Core Competencies.

General Surgery covers many surgical conditions. The curriculum provides an indication of the breadth of knowledge required. The curriculum should only be taken as a guide as to what you will be expected to cover during your training, as you will not necessarily be limited to the areas and conditions listed.

To assist you during your time on the GSET Program, please refer to the relevant Board in General Surgery Training Regulations.

The GSET Regulations can be found [here](#) - or go to the GSA Website, under For Trainees - Training Programs - GSET Program - GSET Regulations.

NSW-ACT REGIONAL OFFICE CONTACT DETAILS

For further information on the General Surgery Training Program, or information provided in this Regional Guide, please contact the NSW-ACT Regional Office:

Wendy Suhr

NSW-ACT Regional Executive Officer

Phone: +61 2 8259 3611

Email: wendy.suhr@generalsurgeons.com.au

NSW/ACT Training Committee

The Australian Board in General Surgery (ABiGS) of RACS oversees the conduct of the RACS Surgical Education and Training GSET program in General Surgery, reporting to the Board of Surgical Education and Training.

The current Chair of the Australian Board in General Surgery is A/Prof Gabby Vasica, FRACS.

Each region has a state-based Training Committee that reports directly to the BiGS. The New South Wales-ACT (NSW-ACT) Training Committee of the Australian Board in General Surgery is responsible for providing recommendations to the Board on regional issues including trainee requests, selection, hospital inspections, and educational courses. The Committee also discusses and reviews the progress of trainees that have been placed on Probation or Performance Management Plan/Learning & Development Plan.

The NSW-ACT Training Committee consists of the Chair, Dr Thembekile Ncube, FRACS, the Deputy Chair, A/Prof Jonathan Hong FRACS, and a nominated Hospital Supervisor from each hospital with a General Surgery accredited post.

All correspondence to the Chair of the Training Committee is to come via the NSW-ACT Regional Executive Officer.

The Training Committee meets four (4) times per year and reports to the Australian Board in General Surgery after each meeting. In most instances the Board will provide final approval to Trainee Requests.

The 2026 NSW-ACT Training Committee meeting dates are listed below. Trainees wishing to submit a request or agenda item for discussion must submit their request by the due dates also listed below.

2026 NSW-ACT TRAINING COMMITTEE MEETING DATES

25 February 2026	Trainee request/agenda items due: 4 February 2026
27 May 2026*	Trainee request/agenda items due: 5 May 2026*
26 August 2026	Trainee request/agenda items due: 5 August 2026
25 November 2026	Trainee request/agenda items due: 4 November 2026

***PLEASE NOTE: As per the Australian Board in General Surgery Training Regulations (www.generalsurgeons.com.au), all trainee requests for interruption must be approved prior to 31 July by both the NSW-ACT Training Committee and Australian Board in General Surgery so that requests can be reviewed and processed in time for the assignment of allocations and rotations in the following year.**

Trainee requests that impact the following years allocations (i.e. interruption, transfers) need to be reviewed at the May meeting at the latest. Requests submitted after this date will only be considered in exceptional circumstances.

Term Dates & Assessments

TERM 1 2026

Term 1 Start Date:	Monday 2 February 2026
Term 1 End Date:	Sunday 2 August 2026
Mid Term Assessment due:	Sunday 3 May 2026 (midnight)
End of Term Assessment + Logbook due:	Sunday 3 August 2026 (midnight)

TERM 2 2026

Term 2 Start Date:	Monday 3 August 2026
Term 2 End Date:	Sunday 31 January 2027
Midterm Assessment due:	Sunday 1 November 2026 (midnight)
End of Term Assessment + Logbook due:	Sunday 31 January 2027 (midnight)

GSET MID TERM AND END OF TERM ASSESSMENTS:

Assessments are conducted at Mid-Term and End-of-Term via the Trainee Information Management System (TIMS). Please refer to the guides available on the GSA website and the GSET Training Program Regulations for further information.

PLEASE NOTE: Regular reminders will be sent prior to the assessment due dates; it is the Trainee's responsibility to be aware of the above dates. Failure to submit an assessment by the due date is a breach of the Australian Board in General Surgery Training Regulations. The period of training may not be accredited resulting in the Trainee automatically commencing Probationary Training in the subsequent term pending a review by the NSW-ACT Training Committee.

Network Supervisors

Network Supervisors oversee a Trainees progress and performance whilst on the Training Program, and they can provide support and advice to their Networks Trainees. It is important to know who your Network Supervisor/s are and to keep in regular contact. If you have any questions or concerns regarding your training, please seek guidance from your Network Supervisor.

NSW-ACT Training Networks Overview

CANBERRA NETWORK

ALMA MATER HOSPITAL: Canberra Hospital

NETWORK SUPERVISOR: Dr Thembi Ncube, FRACS

HOSPITALS WITHIN THE CANBERRA NETWORK:

- Bathurst Base Hospital
- Canberra Hospital
- Calvary Public Hospital
- Calvary Private Hospital

CENTRAL NETWORK

ALMA MATER HOSPITALS: Royal Prince Alfred Hospital (RPAH) & Concord Repatriation General Hospital

NETWORK SUPERVISORS:

Royal Prince Alfred Hospital - A/Prof Jonathan Hong, FRACS

Concord Repatriation General Hospital - Dr Michael Suen, FRACS

HOSPITALS WITHIN THE CENTRAL NETWORK:

- Auburn Hospital
- Blacktown Hospital
- Canterbury Hospital
- Chris O'Brien Lifehouse
- Concord Hospital
- Dubbo Base Hospital
- Orange Hospital
- Royal Darwin Hospital
- Royal Prince Alfred Hospital

NSW-ACT Training Networks Overview

EASTERN NETWORK

ALMA MATER HOSPITAL: St Vincent's Hospital, Sydney

NETWORK SUPERVISOR: Dr Hamish Urquhart, FRACS

HOSPITALS WITHIN THE EASTERN NETWORK:

- Northern Beaches Hospital
- Port Macquarie Base Hospital
- Shoalhaven Hospital
- St Vincent's Hospital
- Wagga Wagga Base Hospital
- Griffith Base Hospital

NEWCASTLE/GOSFORD NETWORK

ALMA MATER HOSPITALS: John Hunter Hospital & Gosford Hospital

NETWORK SUPERVISORS:

John Hunter Hospital - Dr Ruth Hardstaff, FRACS

Gosford Hospital - Dr Paul Chen, FRACS

HOSPITALS WITHIN THE NEWCASTLE/GOSFORD NETWORK:

- Armidale Hospital
- Belmont District Hospital
- Calvary Mater Newcastle
- Gosford Hospital
- John Hunter Hospital
- Maitland Hospital
- Manning Base Hospital
- Port Macquarie Base Hospital
- Tamworth Base Hospital
- Wyong Hospital

NSW-ACT Training Networks Overview

NORTHERN NETWORK

ALMA MATER HOSPITAL: Royal North Shore Hospital

NETWORK SUPERVISOR: Dr Garrett Smith, FRACS

HOSPITALS WITHIN THE NORTHERN NETWORK:

- Hornsby Ku-Ring-Gai Hospital
- Lismore Base Hospital
- Northern Beaches Hospital
- Royal North Shore Hospital
- Ryde Hospital & Community Health Services

POWH/BANKSTOWN NETWORK

ALMA MATER HOSPITALS: Prince of Wales Hospital (POWH) & Bownkstown-Liddcombe Hospital

NETWORK SUPERVISORS:

Prince of Wales Hospital - Dr Christopher Lehane, FRACS

Bankstown-Liddcombe Hospital - Dr Kevin Ooi, FRACS

HOSPITALS WITHIN THE POWH/BANKSTOWN NETWORK:

- Bankstown Hospital
- Fairfield Health Service
- Prince of Wales Hospital
- Royal Darwin Hospital
- South East Regional Hospital
- Sutherland Hospital Caringbah & Community Health Service
- Tamworth Base Hospital
- Wollongong Hospital

NSW-ACT Training Networks Overview

SOUTHERN NETWORK

ALMA MATER HOSPITALS: St George Hospital & Liverpool Hospital

NETWORK SUPERVISORS:

St George Hospital - Dr Natalia Garibotto, FRACS

Liverpool Hospital - Dr Ronald Guevara, FRACS

HOSPITALS WITHIN THE SOUTHERN NETWORK:

- Albury/Wodonga Hospital
- Campbelltown Hospital
- Coffs Harbour Health Campus
- Fairfield Health Service
- Liverpool Hospital
- Shoalhaven District Memorial Hospital
- St George Hospital
- Tweed Heads Hospital
- Wollongong Hospital

WESTERN NETWORK

ALMA MATER HOSPITALS: Westmead Hospital & Nepean Hospital

NETWORK SUPERVISORS:

Westmead Hospital - Dr Taina Lee, FRACS

Nepean Hospital - Dr Clare Bouffler, FRACS

HOSPITALS WITHIN THE WESTERN NETWORK:

- Auburn Hospital
- Bathurst Base Hospital
- Blacktown Hospital
- Dubbo Base Hospital
- Hawkesbury District Hospital
- Mt Druitt Hospital
- Nepean Hospital
- Norwest Private Hospital
- Orange Base Hospital
- Westmead Hospital

TIMS Overview

The Trainee Information Management System (TIMS) provides all Trainees with the ability to view accurate and current information relating to their training.

TIMS allows trainees to view their training profile and to action the following activities:

- Submit/complete assessments and logbooks
- Submit trainee requests
- View hospital rotations
- View complete and outstanding requirements
- View training start date, expected end date and maximum training date

TIMS is accessible through the GSA website (www.generalsurgeons.com.au) via the member login option, enter your RACS ID and password.

PLEASE NOTE: Only access TIMS in Mozilla Firefox, Google Chrome or Microsoft Edge for optimal functionality - DO NOT access TIMS through Safari.

If your contact details have changed for any reason, please update TIMS immediately or contact the NSW-ACT Regional Office to advise.

Trainee Requests

Trainee requests are reviewed by the NSW-ACT Training Committee. Requests can be submitted at any time during your time on the General Surgery Training Program to communicate your needs, movements, and completion of specific requirements.

Trainee requests need to be submitted to the NSW-ACT Training Committee using either the Trainee Information Management System (TIMS) for GSET or Trainee Management System (TMS) for SET and all leave requests must be submitted no later than 30 June.

There are several reasons for submitting a Trainee Request:

- Interruption to Training: Parental Leave, Medical Leave or Personal.
- Interruption to Training: Research
- Other: Used for 'other matters' such as a small exemption of a requirement due to valid reasons.
- Overseas Training
- Flexible Training - Part Time or Split Rotation
- RPL (Recognition of Prior Learning): Skills Courses
- Accelerated Learning
- Additional Clinical Training
- Transfer Region
- Transfer Network
- Extension to Training
- Withdrawal from General Surgery

Requests must be submitted by the trainee request deadline. Failure to do so may delay the request until the next meeting.

It is important to discuss requests with your supervisor as they need to be aware of the circumstances surrounding your request. Additionally, some requests require you to include a letter of support from your supervisor.

All requests will be reviewed and discussed by the NSW-ACT Training Committee, who will then make a recommendation to ABiGS. ABiGS provide final approval/non-approval and will communicate the outcome directly to trainees.

A NOTE ON TAKING LEAVE:

Please consider taking annual leave as it accrues in conjunction with your unit's relieving availability/requirements, as everyone wants the Christmas period off and all hospitals need to continue functioning. Training regulations limit leave in any surgical term to 6 weeks.

RESEARCH SUB-COMMITTEE

The NSW-ACT Research Subcommittee reviews all trainee requests pertaining to research including research RPL, research pre-approval and completion of the research requirement.

The Subcommittee makes recommendation to the NSW-ACT Training Committee, who in turn makes recommendations to the Australian Board in General Surgery for final approval (except research pre-approvals which only require approval from the Regional Training Committee).

Further information on the Research Requirements can be found in the GSET Training Regulations. Trainee request deadline dates can be found [here](#) - or go to the GSA Website, under For Trainees - Education & Training - NSW-ACT Training Committee.

GSET Logbooks

GSET Trainees will use the Australian Board in General Surgery Logbook. The General Surgery Logbook is based on a pre-defined list of procedures, each of which is assigned a number of points. Points are then awarded based on the supervision level when procedures are approved.

Colonoscopy and Endoscopy procedures will also be entered into the General Surgery Logbook and will be counted as per the Regulations.

ACCESS TO GENERAL SURGERY LOGBOOK

The General Surgery Logbook can be accessed via TIMS. Your current rotation will automatically be allocated. Once your rotation is rated, your next rotation will also be automatically allocated, however if you have procedures that need to be entered for your previous term, you will still have the ability to enter that information.

WHEN ARE POINTS AND SCOPE NUMBERS UPDATED TO YOUR PROGRESS BAR

Your points and scope number will be shown in the progress bar once your rotation is marked as Meeting Performance Expectation.

Surgical Education & Assessment Module

Trainees who commence on the General Surgical Education and Training (SET or GSET) Program in General Surgery will be required to complete the Surgical Education and Assessment Modules (SEAM).

SEAM is an online e-learning program comprising eight (8) modules, which have been developed by the Australian Board in General Surgery. Trainees must successfully complete the following modules during the first two (2) clinical years of SET in General Surgery:

1. Acute Abdomen
2. Anatomy
3. Haematology
4. Nutrition
5. The Operating Theatre
6. Peri-operative Care
7. Post-Operative Care (including Rehabilitation and Palliative Care)
8. Trauma & Critical Care

Successful completion of each module is defined as achieving the minimum pass mark in the summative assessment for each module.

Further information regarding the regulations governing SEAM is outlined in the Training Regulations which can be accessed on the [GSA website](#) via For Trainees - Training Program - GSET Program - GSET Regulations.

Instructions on accessing SEAM are outlined in the procedures manual on the [GSA website](#): via Trainees - Training Program - GSET Program - SEAM.

TO ACCESS SEAM MODULES

1. Go to www.generalsurgeons.com.au
2. Select the 'Login' button
3. Enter your RACS ID and password
4. Click on the app launcher in the top left corner, select SEAM.

It is recommended that you use your personal computer (not a public or hospital computer) and only one browser (preferably Firefox) when completing modules. This will ensure that your answers are saved and only accessible by you over multiple sessions. There have been compatibility issues with Internet Explorer 9, Safari and Moodle. We recommend installing Firefox to avoid progression issues.

Please Note: Trainees who do not satisfactorily complete all eight (8) modules by mid-term in the second term of their second clinical year will be recommended for dismissal from the Training Program.

NSW-ACT Educational Sessions & Courses

NSW-ACT EDUCATIONAL PROGRAM

The NSW-ACT Training Committee is committed to ensuring a high standard of training is provided to trainees. A component of this is the Educational Program. The Program's Chair and Faculty give their time, on a voluntary basis, to participate in the Program and share their valuable and extensive knowledge to trainees. The principle aim of the course is to provide an interactive forum where trainee surgeons are given the opportunity to meet and interact with both their peers and Fellows of the College, in a learning environment.

The program does not aim to cover the entire syllabus; nor should it be seen as replacing established clinical teaching programs at individual hospitals. It is anticipated that it will complement and enhance existing hospital teaching programs and lead to trainees gaining surgical maturity at an earlier stage of training.

The dates, topics and presenters for the NSW Educational program are distributed via email, as well as available on the GSA Events calendar - it is the trainees' responsibility to advise their Hospital Supervisor of these dates in order to attend.

Educational sessions will be held via Zoom and commence at 7pm with a duration of 1.5 hours.

ATTENDANCE SET Trainees are expected to attend 70% of sessions over the whole of their training program. GSET Trainees are expected to attend 70% of GSET1-3 to be eligible to attend the Fellowship Exam Course.

WEBCASTS The educational webcast program provides recordings of all educational sessions that are undertaken in each of the regions including the NSW Educational Program sessions. These are available in the member's area of the GSA website (www.generalsurgeons.com.au under For Trainees> Educational Resources) and are usually uploaded within 5 business days after a session. These webcasts provide a valuable educational and exam preparation resource.

For further information regarding the educational sessions and courses provided, please contact Wendy Suhr by email: gsa.online@generalsurgeons.com.au

National Educational Program

TRAINEES' DAY REQUIREMENT

The GSA Trainees' Day is a National educational activity, held twice each year as follows:

MAY

- Virtual program, delivered via GSA Online
- usually held on the Monday of the RACS Annual Scientific Conference week

OCTOBER

- face-to-face
- held the day before the GSA Annual Scientific Meeting
- location rotates around Australia

The program aims to cover the breadth of the General Surgery Curriculum over a five-year cycle. GSA Trainees' Day programs are recorded, and where presenter consent is provided, published as part of the GSA Webcast program for access by all Trainees.

Trainees must attend at least four (4) Trainees' Days over the course of their training. GSET Trainees are required to attend a minimum of two (2) face-to-face Trainees' Days, or their equivalent, to meet the Training Requirement.

GSA EQUIVALENT PROGRAMS

The following GSA programs may also count towards one (1) of the four (4) compulsory Trainees' Days:

GSA MANAGEMENT OF SURGICAL EMERGENCIES (MOSES) COURSE

- open to GSET 3 and above
- face-to-face
- held twice this year in March and October

GSA (VICTORIAN) TRAINEES' WEEKEND

Minimum of two (2) days attendance at the GSA (Victorian) Trainees' Weekend

- open to all Trainees, regardless of region
- face-to-face
- usually held in June

OTHER EQUIVALENT PROGRAMS

There are other courses that may contribute to the Trainees' Day Requirement. Please refer to the Regulations for further details.

Who to contact?

Although the NSW-ACT Regional Office is here to help, it may save you time to go directly to the people that can make a difference.

If your query relates to:

- **Hospital Training issues** - contact first the Unit Supervisor, then your Hospital Supervisor, then your Network Supervisor.
- **Employment/Human Resources** - contact the Hospital Administration or Alma Mater Hospital Administration.
- **Training experience** - contact your Network Supervisor
- **Term Allocations** - contact your Network Supervisor
- **SEAM** - email admin@generalsurgeons.com.au

For any other issues e.g. TIMS Issues, Trainee Requirements, Training Regulations, Trainee Requests please contact the GSA NSW-ACT Regional Office.

RACS SUPPORT PROGRAM

Coping with the demands of a busy profession, maintaining/developing skills and knowledge whilst also balancing family/personal commitments can be difficult and challenging. RACS recognises that Trainees may face demanding situations on a daily basis and therefore offer a confidential Support Program.

RACS is committed to providing support to surgeons to assist them appropriately through difficult situations. Information about the RACS Support Program can be found on the RACS Website: <https://www.surgeons.org/about-racs/Wellbeing/racs-support-program>

DEALING WITH DISCRIMINATION, BULLYING AND SEXUAL HARASSMENT

The Royal Australasian College of Surgeons has a zero tolerance policy concerning unreasonable behaviour from its Trainees, Fellows and Specialist International Medical Graduates (SIMGs). RACS is committed to building a culture of respect in surgery and improving patient safety through identifying and addressing unacceptable behaviours. Behaviours considered unacceptable are detailed in the Unacceptable Behaviours fact sheet available on the RACS website.

RACS has a formal process for lodgement of complaints relating to discrimination, bullying and sexual harassment. More information can be found on the RACS website or by calling the RACS Complaints Hotline: 1800 892 491.

Important Contacts

Dr Ernest Cheng	Trainee Representative

Trainee Representative

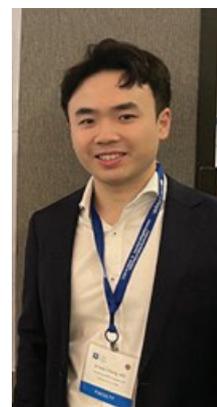

DR ERNEST CHENG

The role as the NSW-ACT Trainee Representative is to ensure that all NSW-ACT trainees in General Surgery are adequately represented with the issues that are of concern to them and/or their training. Specific, or local interests will be advocated for at the NSW-ACT Training Committee meetings and more general training issues will be discussed at the Training Representative Subcommittee meetings. Trainees are encouraged to contact the NSW-ACT Trainee Representative should you require any advice or support.
