

IMPACT - ANZ

Improvement, Measurement, Performance and Outcomes in Trauma

FROM DATA TO ACTION: BUILDING BETTER TRAUMA SYSTEMS

Thursday 18 March 2027
08:00 - 16:00

**Sheraton Grand
Sydney Hyde Park
Sydney**

A practical, highly
interactive one-day
masterclass

IMPACT is a practical, interactive course for clinicians and professionals involved in trauma services who want to turn data and clinical review into meaningful improvement. Using real-world trauma scenarios, participants explore how to identify opportunities, examine contributing system factors, develop effective actions and demonstrate sustained change through loop closure.

Developed and delivered by Global Trauma Partnerships, the course provides practical tools that participants can adapt and apply within their own trauma service.

Course Highlights

Practical, interactive learning
with real-world scenarios

Expert facilitators

Tools and templates for immediate use

Build a 90-day action plan
for your service

Target Audience

Designed for multidisciplinary trauma professionals, including:

- Trauma program managers and coordinators
- Trauma nurses, clinical nurse consultants and nurse practitioners
- Trauma medical directors, surgeons and emergency or intensive care clinicians
- Fellows and registrars with trauma leadership interests
- Registry coordinators and data managers
- Quality, safety and governance professionals
- Allied health professionals involved in trauma care and rehabilitation

Learning Objectives

By the end of the course, participants will be able to:

- Interpret trauma registry and performance information to identify improvement opportunities
- Conduct structured multidisciplinary trauma case reviews
- Distinguish system issues from individual events and identify contributing factors
- Develop a focused trauma quality-improvement initiative
- Select practical indicators to measure change and outcomes
- Use loop closure to demonstrate that improvement actions have been implemented and sustained
- Build a practical 90-day action plan for their own service

What You Will Leave With

- A structured approach to trauma case review and loop closure
- Greater confidence interpreting trauma registry and performance data
- Tools to design and measure a quality-improvement initiative
- A practical 90-day action plan to take back to your service

*Better data. Better decisions.
Better outcomes.*
